

Folkston, Ga. 12-17-83

Judge William Wayne Justice,
District Judge,
Clarksville, Texas.

Dear Judge:

After reading your latest edict about the intergration of the Housing Project in Northeastern Texas, I am convinced that you should change your name to just William Wayne, and leave off the Justice, as it is not fitting to a man that would abuse old and feeble people like you have done in requiring these people to move their place of residence just to satisfy a few negroes, for the sole purpose of mixing them up in the housing project.

Also, at Christmas time to do such a cruel thing, you deserve the title of Super-Scrooge. Anyone who has lived in the south knows that it is better to separate the whites from the blacks. The blacks are Noisy, disrespectful, drink more, cause more trouble, and many are filthy as for sanitation etc.

I hope you are enjoying your latest order, because I do not believe any one else is who has learned about this deed except the NAACP, and it amazes me how you Feds. jump every time the blacks yell discrimination. The chances are that you are a displaced yankee from Connecticut, or Mass. I fully believe in justice to all, but the blacks were no worse off than the whites who live in the same project. A nice Christmas present indeed.
