May 17-1977

Honorable William Wayne Justice
U. S. District Judge
324 West Eighth St.
Tyler, Texas

Your Honor. I have been keeping informed of the dedicated and humane actions you have courageously taken in order to improve the deplorable conditions of the penal institutions for juveniles.

Past history has proven that the abuse that these young people have been subjected to in these places has been a major factor for instilling rebellion hats, and future violence in them.

Proper training and guidance by qualified and concerned personnel could motivate proper and right behavior in these youngsters far better than the cruel treatment they have suffered at the hands of the unmerciful and ignorant people that operate these institutions of "rehabilitation".

I commend you, sir, on your stand for improving this pitiful situation. I am the mother of three children one son, who is an attorney here in Dallas, and two daughters, both school-teachers. If we can be of any assistance to you - We extend our services.

Sincerely - Mrs. V. V. Pope
