P.O. Box 330  
Tyler, Tex. 75710

Dear Sir,

I am sure you have a long list of credentials and high friends in the political structure that have enabled you to put Judge in front of your name. But it seems you deem it important to provide unearned housing, food, and recreation to people who have violated the law. You are supposedly hired to protect the law abiding taxpayer, and punish the the people who violate the law. It seems your demented views concerning who is going to be punished, the law abiding taxpayer or the criminal makes me wonder if you are mentally capable of doing your job. Or possibly you no longer believe we should have a law abiding society. I can only hope that our edcational system will teach the young that people like yourself who have Judge in front of there name can destroy our democracy as your ruling is doing. My opinion is you are a disgrace to our judicial system, and if you were not protected by a legislature who are afraid to pass a law giving the people in the Republic of Texas a right of Referendum you would be removed from the bench.

Richard Hammel
