Judge William Wayne Justice
211 West Ferguson
Tyler, Texas 75702

June 6, 1994

Dear Judge Justice:

What I am going to write is of my own opinion and no one else's. Fifty years ago today a lot of good men lost their lives not only in the invasion of France but also in the Pacific. I often wonder how many of these brave men would roll over in their graves if they saw how the criminals are treated in the United States today. During those times when I grew up we were taught that to be in prison was a disgrace to you and your family. The prisoners were also punished according to their crimes. If you killed someone in committing a crime you could expect the Death Penalty in a most expedient order. The prisoners had no rights because they were a ward of the state and a burden to the taxpayers. You want them to have more recreational facilities, I would like to see that all prisoners had to do manual labor. We use to have prison farms and the prisoners would have to take care of the crops and raise food to feed themselves. Some made license plates and furniture that was used in the prisons. Now because we have people who think that it is a shame to make the poor mistreated babies do manual labor, the honest law bidding taxpayer has another load to carry. I believe that Tyler is known for the fine Rose gardens that are in the city. What would the fine Rose gardens look like if they were full of weeds? To me criminals are like weeds in our beautiful society and they need to be pulled.

Have a nice day.
